CIA HISTORICAL REVIEW PROGRAM
RELEASE AS SANITIZED

2003

OPERATION

PURPOSE:

1. To sow confusion in ranks of leftist parties in Guatemala.
2. To alienate AREVALO supporters from the ARBENZ regime.
3. To further incline the AFL to take positive steps against the Guatemalan regime.

METHOD:

President MEANY of the AFL on 5 February sent an open letter to President ARBENZ of Guatemala outlining the general concern of the AFL with the Communist influence in the ARBENZ government and in the Guatemalan labor movement. MEANY closed by requesting a rapid reply.

As yet no reply has been forthcoming from either ARBENZ or any other member of the Guatemalan government.

It is proposed to take advantage of this situation by producing a letter ostensibly from ex-President of Guatemala AREVALO to MEANY outlining points which would accomplish the purposes mentioned above. It is not considered feasible to have a reply come from Guatemala for reason that an actual answer may be forthcoming in the near future to President MEANY's letter. Reports reaching Headquarters indicate that there may have been a falling out between AREVALO and ARBENZ. AREVALO recently visited Guatemala. Upon his return to Santiago (where he is now living), he stopped off in La Paz and made statements of an embarrassing nature to the Guatemalan Communists and regime.
